

Brady Heights “Tulsa Spirit” Monument Ornament

Supplies needed:

Photo paper for your color printer
 X-acto knife
 Cutting surface
 Straight edge
 Rubber cement
 String (gold) and tape

Directions:

1. Print on letter size (8.5" x 11") photo paper using high quality photo settings on your printer. Do not scale image. Using standard copier paper will not allow you to score and fold the paper as intended.
2. Using an X-acto knife, cutting surface and straight edge, cut along outside edges and all red dashed lines show in diagram below.
3. Score all solid green lines show on diagram below. Scoring is done by lightly marking with an X-acto knife.
4. Fold OUT on all scored lines except those indicated. Fold those IN.
5. Tape string (gold is nice) INSIDE one cap triangle.
6. Using rubber cement, glue both sides to be joined and let set for one minute.
7. Starting with the middle section, begin joining tabs to flat edges.
